Test Cases: Authentication & Registration Testing

ID	TC-AUTH-01
Summary	Verify account lockout for 15 minutes after 5 failed login attempts and check that the unlock time is displayed
Priority	Critical
Requirement	REQ-AUTH-04
Preconditions	1. The user is in the BugBasket 2. A registered test account exists in the system.
Test data	1. Email: student1@bugbasket.test 2. Wrong Password: WrongPassword123 3. Correct Password: Student123
Steps	1. Open the login page. 2. Enter a valid email and an incorrect password. 3. Click the login button (repeat this action exactly 5 times in a row). 4. On the 6th attempt enter correct password. 5. Check the error message displayed on the screen.
Expected result	1. After the 5th failed attempt, the system locks the account for exactly 15 minutes. 2. An error message appears on the screen indicating the exact unlock time.
Postconditions	Wait for the timeout to expire
Status	Failed (BUG-AUTH-01)

ID	TC-AUTH-02
Summary	Verify that the password reset link is single-use
Priority	High
Requirement	REQ-AUTH-06

Preconditions	1. The user is in the BugBasket 2. A registered test account exists in the system.
Test data	1. Email: student2@bugbasket.test 2. Password: Student123
Steps	1. On the login page, click "Forgot password" 2. Enter the email and submit the request. 3. Go to login page 4. Enter correct email and password. 5. Go to the demo mailbox (/mailbox) and open the received email. 6. Click the reset link for the first time and set a new password. 7. Open the same reset link again and try to set a new password again.
Expected result	1. The first click on the link opens the new password creation page. 2. Other clicks on the same link show an error (e.g., the link is no longer valid / expired) because it is single-use.
Postconditions	Set the original password
Status	Failed (BUG-AUTH-02)

ID	**TC-AUTH-03**
Summary	Verify that a user is returned to the original protected page after a successful login
Priority	High
Requirement	REQ-AUTH-07
Preconditions	1. A registered test account exists in the system. 2. The user is not authenticated in the system
Test data	1. Email: student2@bugbasket.test 2. Password: Student123 3. Protected URL: Profile · BugBasket

Steps	1. Copy and enter the protected URL into the address bar. 2. Press Enter. 3. Enter valid credentials on the login page and click the Login button.
Expected result	After successful credential entry, the user is sent back to the page they originally tried to access (Profile · BugBasket).
Postconditions	Log out of the system
Status	Passed

ID	**TC-AUTH-04**
Summary	Verify email validation for 65 characters
Priority	Medium
Requirement	REQ-AUTH-01
Preconditions	1. The user is in the Create account · BugBasket
Test data	Invalid email (65 characters): testtest10testtest20testtest30testtest40testtest50test@gmail.com
Steps	1. Enter an email with 65 characters. 2. Check the validation state (leave the field - blur event).
Expected result	An email with a 65-character length triggers a format validation error (maximum length exceeded).
Postconditions	Clear the registration form.
Status	Failed (BUG-AUTH-03)
