BugReports: Authentication & Registration Testing

ID	**BUG-AUTH-01**
Summary	Account is not locked after 5 failed login attempts.
Date & Author	28.10.2026 Yuliia Semochko
Environment	Windows 11, Chrome v155.0.0.0(Desktop)
X-Request-Id	7a1da7b9-5272-4ad9-a023-98266d308fac bc2a364f-d186-4edc-9cd7-1e6529b2de6f
Severity / Priority	Critical
Requirement	REQ-AUTH-04
Associated Test Case	TC-AUTH-01
Preconditions	1. The user is on the BugBasket 2. A registered test account exists in the system.
Test data	1. Email: student1@bugbasket.test 2. Wrong Password: WrongPassword123 3. Correct Password: Student123
Steps to Reproduce	1. Open the login page. 2. Enter a valid email and an incorrect password. 3. Click the login button (repeat this action exactly 5 times in a row). 4. On the 6th attempt enter correct password. 5. Click Log in
Postconditions	1. Log out of the account
Actual Result	The user successfully logs into the account on the 6th attempt without any lockout enforcement or unlock time error message displayed.
Expected result	After the 5th failed attempt, the system locks the account for exactly 15 minutes.

	An error message appears on the screen indicating the exact unlock time.

ID	**BUG-AUTH-02**
Summary	Password reset link sent via /forgot-password can be reused multiple times within 30 minutes
Date & Author	28.10.2026 Yuliia Semochko
Environment	Windows 11, Chrome v155.0.0.0(Desktop)
X-Request-Id	441699a0-a471-4a11-a94c-ae21c016b322
Severity / Priority	High
Requirement	REQ-AUTH-06
Associated Test Case	TC-AUTH-02
Preconditions	1. The user is on the BugBasket 2. A registered test account exists in the system.
Test data	1. Email: student2@bugbasket.test 2. Original Password: Student123 3. New Password 1: NewPassword123 4. New Password 2: NewPassword456
Steps to Reproduce	1. On the login page, click "Forgot password" 2. Enter the email and submit the request. 3. Go to login page 4. Enter correct email and password. 5. Go to the demo mailbox (/mailbox) and open the received email.

	6. Click the reset link for the first time and set a new password. 7. Open the same reset link again and set a new password again.
Postconditions	1. Set the original password
Actual Result	The reset link remains active and allows setting a new password multiple times without throwing an error.
Expected result	1. The first click on the link opens the new password creation page. 2. Other clicks on the same link show an error (e.g., the link is no longer valid / expired) because it is single-use.

ID	**BUG-AUTH-03**
Summary	Email field accepts inputs with 65 characters without triggering validation error
Date & Author	28.10.2026 Yuliia Semochko
Environment	Windows 11, Chrome v155.0.0.0(Desktop)
Severity / Priority	Medium
Requirement	REQ-AUTH-01
Associated Test Case	TC-AUTH-04
Preconditions	1. The user is on the Create account · BugBasket
Test data	1. Invalid email (65 characters): testtest10testtest20testtest30testtest40testtest50test@gmail.com

Steps to Reproduce	1. Enter an email with 65 characters. 2. Click outside the field to trigger the blur event.
Postconditions	1. Clear the registration form.
Actual Result	No validation error is displayed; the field accepts the 65-character email input without restricting length or flagging format error.
Expected result	An email with a 65-character length triggers a format validation error (maximum length exceeded).
Status	New

ID	**BUG-AUTH-04**
Summary	Password can be changed without containing a digit during password reset via Mailbox
Date & Author	28.10.2026 Yuliia Semochko
Environment	Windows 11, Chrome v155.0.0.0(Desktop)
X-Request-Id	83939deb-7b6e-4be0-beb2-25394a9ce1c1
Severity / Priority	Medium / Medium
Requirement	REQ-AUTH-01
Associated Chechlist	Checklist-AUTH-01
Preconditions	1. The user is on the BugBasket
Test data	1. Email: student2@bugbasket.test 2. Password: Student123
Steps to Reproduce	1. Go to the /login page. 2. Click on Forgot password? 3. Enter the test email (student2@bugbasket.test). 4. Click the Send reset link button. 5. Click on the hyperlinked text Mailbox. 6. Enter the test login credentials.

	7. Click the Log in button. 8. Go to the /mailbox page. 9. Click on the email Reset your BugBasket password. 10. Click on the hyperlinked text Reset password. 11. Enter a new password that meets all requirements except containing a digit Click the Set new password button. 12. Look at the success message "Password updated. You can log in now"
Postconditions	1. Set original password 2. Log out
Actual Result	The password is changed successfully without including a digit.
Expected result	The system should reject the password and display a validation error indicating that passwords must be 8–32 characters long, containing at least 1 uppercase letter, 1 lowercase letter, and 1 digit.

ID	**BUG-AUTH-05**
Summary	Register button activates without the required Terms checkbox being checked
Date & Author	28.10.2026 Yuliia Semochko
Environment	Windows 11, Chrome v155.0.0.0(Desktop)
X-Request-Id	fa4a3248-5f59-480d-a2b6-30e71ec5bb25
Severity / Priority	Major / High
Requirement	REQ-AUTH-01 REQ-AUTH-02

Associated Checklist	Checklist-AUTH-01
Preconditions	1. The user is on the BugBasket
Test data	1. Email: student2@bugbasket.test 2. Password: Student123
Steps to Reproduce	1. Go to the /register page. 2. Enter valid email Enter valid data (email, first name, last name, password, and a matching confirmation password). 3. Leave the Terms checkbox unchecked. 4. Click the Register button.
Postconditions	1. Clear the form
Actual Result	The Register button activates when all text fields are filled with valid data, even though the required Terms checkbox stays unchecked. The user is not registered and no error messages are displayed in the UI.
Expected result	While checkbox is not checked, the Register button stays disabled
